Service Description

Access psychologists who are in private practice • Seek and self-select qualified and trusted psychologists for assistance in a range of areas. • Easily search by psychological issue and location. • Bilingual psychologists available. Extra Information: • A Mental Health Care Plan is needed in order to see a private psychologist. • A GP can provide the Mental Health Care Plan. • You need to request a longer consultation with your GP to allow enough time for them to prepare your Care Plan. • Medicare will cover some or all of the cost of care planning by a doctor. It will also rebate some of the costs to see the psychologist for 10 sessions. • Ask the psychologist for a summary of their fees and the Medicare rebates that you are entitled to. This will help you determine any out-of-pocket expenses. /> • The doctor must get a young person's consent before a Care Plan can be developed. • Care plans are usually prepared every 12 months and should be reviewed after 3 months.
